Frontend Developer | React.js | TypeScript | Full Right to Work in the UK

United Kingdom | +44 776 814 8686 | namithakv605@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

---

## PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of commercial experience building responsive, user-focused web applications across healthcare, fintech, and esports sectors. Specialises in React.js and TypeScript, with a proven track record delivering reusable component libraries, REST API integrations, and mobile-first interfaces. Returned to active development in 2026 following a planned career break, maintaining and developing frontend skills through independent project work throughout. Full right to work in the UK — no sponsorship required.

---

## TECHNICAL SKILLS

**Frontend Technologies:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, jQuery

**Core Concepts:** Responsive Design, Component-Based Architecture, REST API Integration, State Management, Cross-Browser Compatibility, Performance Optimisation, Mobile-First Development

**Tools & Workflows:** Git, GitHub, VS Code, Agile/Scrum

**Databases:** MongoDB (Basic), SQL

---

## PROFESSIONAL EXPERIENCE

**Frontend Developer Intern** | 3S Knowledge — United Kingdom      Feb 2026 – Mar 2026

- Built a complete utility application for creating and managing UML sequence diagrams for the ProcessPro platform, from initial scaffolding through to production deployment.
- Designed and delivered a reusable UI component library in TypeScript and Tailwind CSS, improving frontend consistency across 3+ internal tools.
- Improved usability of internal reporting tools through responsive UI enhancements and targeted debugging, reducing reported UI defects.
- Collaborated daily with development teams via GitHub-based workflows, participating in Agile stand-ups, sprint planning, and issue resolution.

**Frontend Developer — Self-Directed Projects** | Independent Development — Remote Oct 2022 – Jan 2026

*Planned career break for childcare. Maintained active frontend development skills throughout via independent project work.*

- Built multiple production-quality React.js and TypeScript projects, including a UML Sequence Diagram Editor with real-time sync, drag-and-drop editing, and PNG/SVG export.
- Developed a full-stack esports tournament platform (GM4) and a banking management system frontend (TrumpCore), covering complex state management and dynamic data workflows.
- Maintained up-to-date knowledge of the React ecosystem, REST API integration, Git workflows, and modern CSS tooling throughout the break.

**Frontend Developer (Freelance)** | TrumpCode Pvt Ltd — Remote      Jan 2022 – Oct 2022

- Developed responsive business web applications using React.js and JavaScript to support internal operational workflows.
- Built mobile-first interfaces integrating REST APIs and backend services, enabling dynamic data-driven functionality for client applications.

- Performed systematic testing, debugging, and frontend issue resolution, improving application stability across multiple releases.

#### **Frontend Developer** | *WebSoulLabs — Kerala, India*

Apr 2021 – Dec 2021

- Delivered responsive websites using React.js, JavaScript, HTML, and CSS, collaborating within cross-functional development teams.
- Carried out frontend debugging, UI improvements, and SEO optimisation, improving page performance and search visibility.

---

## **KEY PROJECTS**

### **Sequence Diagram Editor** — *UML Visualisation Tool*

- Interactive UML Sequence Diagram Editor with real-time synchronisation between code editor and visual canvas, drag-and-drop editing, UML fragment support, and PNG/SVG export.
- Implemented localStorage persistence for session continuity, zoom controls, and a clean developer-focused UI.

*Stack: React.js, TypeScript, Mermaid.js, CodeMirror, Tailwind CSS*

### **GM4** — *Esports Tournament Platform*

- Web platform for BGMI esports tournament booking and team registration, featuring full responsive UI and tournament management workflows.

*Stack: React.js, JavaScript, HTML5, CSS3, SCSS, MongoDB*

### **TrumpCore** — *Banking Management System*

- Frontend for a centralised banking application covering user and role management, customer account handling, transaction reporting, and an administrative dashboard.

*Stack: React.js, JavaScript (ES6+), HTML, CSS*

### **AroyaLife** — *Healthcare Application*

- Healthcare management platform with patient/doctor interaction interfaces, appointment scheduling, online consultation, and medical history tracking.

*Stack: React.js, JavaScript, HTML, CSS, SCSS*

---

## **EDUCATION**

### **Master of Computer Applications (MCA)**

2015 – 2018

*Federal Institute of Science and Technology (FISAT), Kerala, India*

### **Bachelor of Computer Applications (BCA)**

2012 – 2015

*Adithyakiran College of Applied Studies, Kerala, India*

---

## **WORK AUTHORISATION**

Full right to work in the United Kingdom. No sponsorship required.
